

Do you comply or could someone die?

Did you know...that the vast majority of small-medium business owners are unaware of their obligations regarding workplace safety?

Under the Occupational Health and Safety Act 2004: "an employer must, so far as reasonably practicable, provide and maintain for employees of the employer, a working environment that is safe and without risks to health".

The penalties for failure to provide a safe workplace environment are 1) 1800 penalty points for a natural person 2) 9000 penalty units for a body corporate. This is approximately \$113 per penalty unit & these penalties apply to each individual offence.

Australian and New Zealand Standard AS/NZS 3760:2003 specifies in-service safety inspection and testing protocols and criteria to enable employers and employees to properly discharge their responsibilities relating to Occupational Health and Safety matters. The standard dictates that all portable electrical equipment in the workplace shall be tested and tagged at intervals determined by the type of equipment and the environment in which it is operated.

Employers who choose not to adhere to the standard leave themselves, at the very least, exposed to prosecution and heavy fines. At the worst - someone may be injured or killed.

where required

Teksupport strongly recommends all customers who have portable electrical equipment in their workplace - to Test & Tag - and provide peace of mind for all in the workplace.

Why use Teksupport to perform Test and Tagging?

Most competent electrical service technicians can perform test and tagging when trained. However our experience of late has shown that in many cases lack of understanding of complex communications and computer systems has led to costly shutdowns and system failures when operators test equipment that they are unfamiliar with.

If you are a Teksupport TekEasy customer, you can incorporate Test and Tag as part of your TekEasy contract.

For assistance or advice on testing & tagging please call and we will be happy to assist with advice and a no-obligation quotation.
